

Erasmus placement offer

About Us

PGS is a dynamic software development and information technology outsourcing company with two nearshore development centers in Poland. We provide nearshore outsourcing solutions to enterprises in Europe and offshore to services in USA. Combining proven expertise in technology, and an understanding of emerging business domains, PGS delivers a range of outsourcing services that includes Custom Application Development, Integration Solutions and product engineering.

Communication

Internally we communicate in Polish and English. It is required to fluently communicate in English (speaking, listening and writing skills), because many times one has to communicate with customers directly.

We are looking for...

students of the last two years of studies, who speaks perfectly English (preferably native speakers). The following qualifications are required:

- excellent analytical skills,
- experience with object-oriented design and programming,
- good knowledge of at least one of the following languages/environments: **Microsoft .NET framework (C# language), PHP, Java,**
- good spoken and written English,
- strong communication and collaboration skills,
- basic knowledge of agile software development principles.

Our offer

We are offering placement for up to 4 students in our location in **Rzeszow**. Placements should last from 3 to 12 months. Participants will be working in the development team with the following scope of responsibility:

- taking part in the preparation of the design for projects,
- working as a developer/tester in different projects,
- reporting tasks to team leader.
