I. About the Erasmus+ program

Erasmus+ is the new EU program for education, training, youth and sport for 2014-2020, started in January 2014. It combines seven programs from the 2007-2013 period, namely the Lifelong Learning program, the Youth in action program and five international cooperation programs.

Erasmus+ will provide opportunities for over 4 million Europeans to study, train, gain work experience and volunteer abroad. In addition to grants for individuals, Erasmus+ will support transnational partnerships to foster cooperation and bridge the worlds of Education and work in order to tackle the skills gaps we are facing in Europe. It will also support national efforts to modernize Education, Training and Youth systems. In the field of Sport, there will be support for grassroots projects and cross-border challenges such as combating match-fixing, doping, violence and racism.

*Be part of it!*

II. Criteria of participation

Eligible participants

Students registered in a higher education institute (HEI) and enrolled in studies leading to a recognized degree or another recognized tertiary level qualification (up to and including the level of doctorate). In case of mobility for studies, the student must be enrolled at least in the second year of higher education studies. For traineeships, this condition does not apply. Recent higher education graduates may participate in a traineeship. Recent graduates must be selected by their HEI during their last year of study, and must carry out and complete their traineeship abroad within one year of obtaining their graduation.

Duration of the activity

Study periods: from grant to 12 months (including a complementary traineeship period, if planned).
Traineeships: from 2 to 12 months.
The same student may participate in mobility periods totaling up to 12 months (prior experience under LLP – Erasmus Program counts towards the 12 months per study cycle) maximum per each cycle of study (in one-cycle study programs, such as Medicine, students can be mobile for up to 24 months), independently from the number and type of mobility activities. Participation with a zero - grant from EU funds counts as well towards this maximum duration.

- during the first study cycle (Bachelor or equivalent) including the short - cycle (EQF levels 5 and 6);
- during the second study cycle (Master or equivalent - EQF level 7); and
- during the third cycle as doctoral candidate (doctoral level or EQF level 8).

The duration of a traineeship by recent graduates counts towards the 12 months maximum of the cycle during which they apply for the traineeship.

**Venue(s) of the activity**

Students must carry out their mobility activity in a Program or Partner Country different from the country of the sending organization and the country where the student has his/her accommodation during his/her studies.

**III. Student mobility for studies**

a) **Period of the scholarship program, amount of scholarship grant**

- Study periods: from minimum 3 months (90 days) to 12 months (360 days)

The EU grant provided to students will depend on their mobility flow, as follows:

- mobility towards a country with similar living costs: students will receive the medium range EU grant;
- mobility towards a country with higher living costs: students will receive the higher range EU grant;
- mobility towards a country with lower living costs: students will receive the lower range EU grant.

- Those students who participate in the mobility program in the winter semester have the opportunity to lengthen their stay for the summer semester but the scholarship grant for the second semester is not guaranteed.
- The scholarship grant is not meant to cover all the costs of living, the students may supplement the money they get from other sources.
- The scholarship grant will be transferred in euros to the bank account (forint or foreign currency) given by the student before the mobility.
- In the case of mobilities that are longer than 5 months, before the mobility the university will transfer the scholarship grant calculated for the first 5 months. The remaining amount will be transferred after the student submits his/her Validation form and the Transcript of records to the central Erasmus Office.

**b) Duties of the students**

- Inquiring about the schedule of the receiving institution: beginning and the end of the study period and the exam period, holidays
• Application deadlines (submission of the application form of the receiving institution, booking accommodation, etc.)

• Asking for information whether there is a compulsory insurance required by the receiving institution or whether students receive free insurance during their stay abroad. We suggest that students should ask for a European Health Insurance Card that covers basic services in the member states of the EU.

• Inquiring about accommodation, organizing the travel (booking airline tickets, ordering train/bus tickets, etc.)

c) Detailed duties of the students, necessary forms

BEFORE THE MOBILITY

1. Complete the **application form of the receiving institution** (according to the nomination of the departmental coordinator) taking the application deadline into consideration
